TERY'S COFFEE ROASTERY

TERY was a coffee snub. In her twenty ages, since she had ever experienced a taste of hand dripping coffee brewed from fresh roasted whole bean for her euro-trip, she has endlessly tested to find infinite way to extract excellent taste of coffee. TERY didn't want to enjoy awesome coffee taste by herself, so she began to share her own know-how with her friends. As TERY's coffee has attracted so many people, she decided to startup her own cafe so that she founded **TERY'S COFFEE ROASTERY** in San Francisco in 2014.

Mission

Coffee is not merely drink but also medium for better communication. A cup of coffee can make us more friendly with each other. So, **TERY'S COFFEE ROASTERY** will be a bridge between you and your good friends.
